

Your One-Stop Solution for Advanced Automation and Precision Panel Building

Who We Are

- At Nexis Automation, we are a dynamic company specialising in industrial automation and embedded solutions. With expertise spanning across advanced technologies, we have successfully partnered with clients across industries and regions.
- Our mission is to empower businesses by delivering cutting-edge automation solutions that optimise efficiency, enhance productivity, and drive innovation. From PLCs and HMIs to Embedded Systems and Custom Control Panels, our tailored solutions are engineered to exceed expectations.
- We are committed to excellence, providing unparalleled customer service and reliable support to ensure your operations achieve their full potential.

Why Choose Us

Deep Industry Experience

Backed by extensive experience across industries, Nexis Automation offers tailored solutions that address specific challenges, enabling unparalleled precision and reliability in every project we undertake.

Consulting Expertise

With deep domain knowledge and a customer-first approach, our consulting services guide you in adopting and integrating the latest technologies seamlessly into your operations.

Rapid Value Creation

Our solutions are designed to deliver immediate impact by optimising processes, reducing downtime, and driving cost efficiencies, ensuring measurable value for our clients.

Brands That Drive Our Solutions

★ OFFICIAL CHANNEL PARTNER ★

INOVANCE

- PLC - HMI - Servo Systems - Industrial Robots - Ac Drive - Crane Drive - Air Compressor Drive - Industrial Robotics

Schneider Electric

- PLC - HMI - Servo Drive - Motion Controller - Ac Drive - Soft Starter - Industrial Sensor - SCADA

OMRON

- PLC - HMI - Servo Drive - Motion Controller - Ac Drive - Industrial Sensor

EQ ELECTROQUIP

Powering Precision for Over Three Decades

Established in 1991, ELECTROQUIP is a trusted name in industrial automation, with over 33 years of excellence in manufacturing high-performance DC Drives, Vibratory Feeder Controllers, Microcontroller-Based Drives and Custom Control Panels. As a pioneer in the field, our commitment to quality, innovation, and reliability has made us a preferred partner across various industries. Electroquip is proud to be the parent company of Nexis Automation, further expanding our capabilities in delivering cutting-edge automation solutions.

Services Provided :- Automation control panels (MS/SS/FLP/ATEX) - Control panels compatible for CE & UL marking - DC Drive - Vibrator Controller - Embedded Solution - Customised Products

Production Office

 Unit No. 130, Bldg. No. 1, New Sonal Link Ind. Est., Link Road, Kanch Pada, Malad West, Mumbai - 400 064
